## Overview

This page is a draft SOP reference for the above screen in **i2i Core OSS/BSS**. It is auto-generated from UI exports and should be reviewed for operational correctness before customer release.

## When to Use

- Use this screen for the workflow represented by this route.
- Do not make billing/AAA/provisioning-impacting changes without required authorization.

## Typical Workflow

1. Verify you are working on the correct entity (Customer/Account/Service).
2. Review the current lifecycle state before making changes.
3. Apply changes and validate system response.
4. Confirm downstream impact (AAA/Provisioning/Billing) where applicable.

## Field & Action Hints (Auto-detected)

- **Fields detected:** Advertisement Name, Type, Select Category
- **Actions detected:** Auto, Close, WiFi, Advertisement Service, Cancel, Create Advertisement Portal

## Validation & Safety Checks

- Confirm identifiers before saving.
- Confirm lifecycle state allows the change.
- Confirm rollback/support path exists for production actions.

# Escalation Guidance

- **L1:** Verify input, permissions, and entity state.
- **L2:** Validate dependencies and downstream state.
- **L3/Admin:** Policy/config changes or suspected defect.

The screenshot displays the SMARTLINK web application interface for creating a new access point. The page title is "Access Point" with the subtitle "Create new access point". The breadcrumb navigation shows the path: Home > WiFi > Access Point > Create. The form is titled "Captive Portal Basic Details" and contains several input fields: "Access Point Name" (highlighted with a red border), "Hotspot" (a dropdown menu currently set to "Default Hotspot"), "Device Serial Number", "Device MAC Address", "Latitude", "Longitude" (highlighted with a blue border), and "VLAN". There is also a large text area for "Description". At the bottom right of the form, there are two buttons: "Create Access Point" (blue) and "Cancel" (orange). The top navigation bar includes the SMARTLINK logo, "Online Sessions (4233)", "Access Request", "Quick Actions", a search bar, and the user profile "Priyesh Chauhan".

The screenshot shows the SMARTLINK admin interface for creating a new captive portal. The page title is "New Captive Portal" with the subtitle "Create new captive portal". The interface is divided into three main sections:

- Captive Portal Basic Details:** This section contains three input fields: "Captive Portal Name" (a text box), "Description" (a text box), and "Layout" (a dropdown menu).
- Background Configuration:** This section contains a single dropdown menu labeled "Background Configuration".
- Captive Portal Logos:** This section contains three separate upload boxes, each with a blue "+" button and a label: "Primary Logo", "Secondary Logo", and "Logo Mark".

The top navigation bar includes the SMARTLINK logo, "Online Sessions (4233)", "Access Request", and "Quick Actions". A search bar is present with the text "Search or jump to...". The user's name "Priyesh Chauhan" is displayed in the top right corner. The breadcrumb trail at the bottom of the navigation bar reads: "Home > WiFi > Captive Portal Service > Create".
