Route: pro/iptv/broadcaster/all

URL: <https://admin.myslbb.com/#/pro/iptv/broadcaster/all>

Overview

This page is a draft SOP reference for the above screen in **i2i Core OSS/BSS**. It is auto-generated from UI exports and should be reviewed for operational correctness before customer release.

When to Use

- Use this screen for the workflow represented by this route.
- Do not make billing/AAA/provisioning-impacting changes without required authorization.

Typical Workflow

1. Verify you are working on the correct entity (Customer/Account/Service).
2. Review the current lifecycle state before making changes.
3. Apply changes and validate system response.
4. Confirm downstream impact (AAA/Provisioning/Billing) where applicable.

Field & Action Hints (Auto-detected)

- **Fields detected:** IPTV Platform
- **Actions detected:** Auto, Close, Product, IPTV, Manage Broadcaster, Add Broadcaster

Validation & Safety Checks

- Confirm identifiers before saving.
- Confirm lifecycle state allows the change.
- Confirm rollback/support path exists for production actions.

Escalation Guidance

- **L1:** Verify input, permissions, and entity state.
- **L2:** Validate dependencies and downstream state.
- **L3/Admin:** Policy/config changes or suspected defect.

The screenshot displays the SMARTLINK web application interface for managing IPTV broadcasters. The top navigation bar includes the SMARTLINK logo, user information (Priyesh Chauhan), and various system links like Online Sessions (4258), Access Request, and Quick Actions. A search bar is also present. Below the navigation bar, a breadcrumb trail shows the path: Home > Product > IPTV > Manage Broadcaster > List. The main content area is titled "Broadcaster" with a subtitle "Manage Broadcaster" and an "Add Broadcaster" button. A search filter "Search By Broadcaster Name" and a dropdown for "IPTV Platform" are provided. A table with columns for #, Name, Description, Status, Provision Status, IPTV Platform, Created On, Updated On, and Actions is shown, but it contains no data, displaying "No Broadcaster found". A pagination control at the bottom indicates "0 - 0 of 0" items.
